

SR CAR is proud to be considered for the 2014 Hot Rod and Restoration Trade Show Innovation Awards as the Best New Product of the Year.

East Haven, CT (February 5, 2014) - Silent Running's product, SR CAR (www.sr-car.com) is proud to be considered for the 2014 Hot Rod and Restoration Trade Show Innovation Awards as the Best New Product of the Year.

SR CAR has teamed up with Louisiana based company, TEMP-COAT Brand Products, to introduce SR CAR Sound and Thermal Spray Kit, a 2 part spray system that quickly and easily helps both deaden sound and thermally insulate your car.

The SR CAR Sound and Thermal Spray Kit is simple; first spray on SR CAR to all interior surfaces you want to cover such as the firewall, wheel wells, door panels, and trunk, then spray on the Thermal Spray over SR CAR to complete your project!

Last year, Silent Running attended the Hot Rod and Restoration Trade Show, where they won Best New Product for Exterior Paint and Body for SR CAR. The team is excited to return this year with their exciting new product, SR CAR Sound and Thermal Coating. To see a hands on demonstration for both SR CAR and SR CAR Thermal Coating, stop by their booth #253. For more information on SR CAR, visit their website at www.sr-car.com or call (877) 436-6542.
